## Guarantees

HOTT assures that you get quality training at a low price point via our seven ironclad guarantees. This is possible due to a high standard of excellence required of instructor presentations, our proprietary task-oriented courseware development process refined over decades, robust hands on exercises, and internal processes that remove risk.

- ▶ HOTT guarantees small class sizes.
- ▶ HOTT guarantees quality instructors.
- ▶ HOTT guarantees competence.
- ▶ HOTT guarantees that training from HOTT will be more cost-effective than training from any other source.
- ▶ HOTT guarantees that students in open-enrollment classes are protected against cancellations and will be able to receive desired training at the cost they expect and in the time frame they have planned.
- ▶ HOTT guarantees overall quality with a 100% money-back guarantee. If you're not totally satisfied for any reason, simply withdraw before the beginning of the second day (or before completing 4 modules of an on-demand streaming presentation). Return all course materials and receive a 100% refund.

## Quality

**Students receive a hands on learning experience with at least 50% lab time.** Complete control of our courseware allows us to update it more frequently based on student and instructor feedback. Remote attendees utilize the same equipment and obtain the same real-time attention and feedback from the instructor and other students.

Small class sizes (an average of 6-8 students) mean more direct instructor facilitation.

HOTT instructors are dedicated technology experts with an average of over 10 years experience in IT programming and training. Our requirements for instructor performance are so stringent that only a tiny fraction of professional instructors currently teaching for competitors can even be considered for an interview. Less than half of those pass our screening and are ever offered a position with HOTT.

**"HOTT definitely gets you involved into course knowledge by giving 'hands on' training. A great element of the course structure!"**

**"The teachers know their stuff - the content was clear and concise. There were many 'real' examples to further explain their point!"**
